

Stoneware is the sister concern of Astral Quarrying Services, a services provider and global pioneer in the exports of Natural and Engineered Stone since 1996. In 2021 AQS introduced Stoneware to localize operations in India, a D2C omnichannel concept for professionals (architects, designers, fabricators etc) and homeowners alike to source the best in class, high quality innovation in Natural Stone from select suppliers (direct from source- quarries and factories) globally and in India without the involvement of intermediaries.
