A Letter from the owners-
The Stoneware Choice and Commitment, since 1996

Dear Customer,
For Homeowners

Uncertain times call for flexible measures and consistent performance. That's where Stoneware can be your trusted partner for sourcing stone products for home design applications. Our USP is simple: Innovation- to deliver maximum value for your products, and to keep innovating and improving. All while delivering industry pioneering quality and value for limited specialized products through-

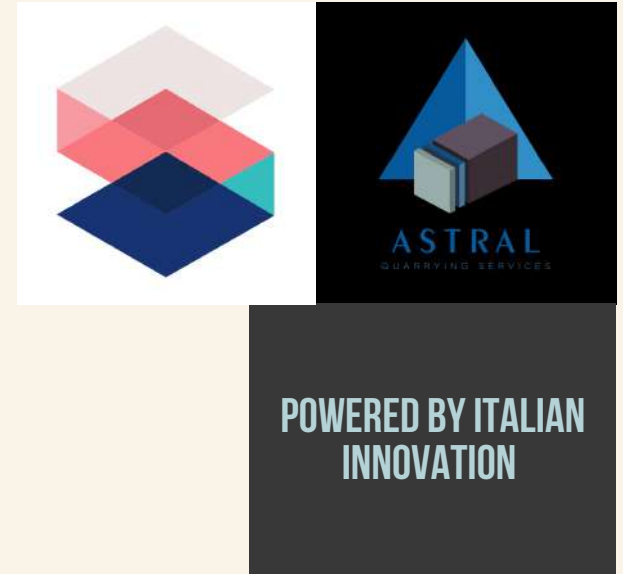

- 1) Collaborative supplier partnerships and inspection services at the source to maximize Quality related benefits, differentiation and value.
- 2) Customer-focused Omnichannel experience designed through the Stoneware Application to minimize the role of intermediaries in the supply chain while providing transparency and exclusive product offerings, direct from source, and minimizing consumer fatigue.

For Professionals (Architects, builders, fabricator, contractors etc and other players in the construction supply chain):

- 1) We minimize sourcing risk for you, by keeping the Supply chain flexible at all times for a diversified range of products, both Natural and Engineered from leading manufacturers in the world.
- 2) We help you stay ahead of the curve and keep innovating; your customer is going to notice the differentiation and value in your product the moment he/ she steps into our warehouse.
- 3) We therefore strive to help you maximize sales and profitability for the segments of your choice
- 4) We are here to understand your business as a friend and are not here to sell you our agendas or volumes.

Bringing you the gift of trust through consistent and reliable service. We look forward to working with you in the long term.
